Subject: M6H1 – Harvey Response Digital Globe Tiles 20170831
Date: Friday, September 1, 2017 10:55:22 PM

Barb,

I am adding the rest of the Digital Globe data to the RTPGIS/Incoming folder on the FTP Server right now. I think the idea was that a tile service would be created for these as well. I would confer with Grace to make sure that is still what needs to happen.

As of about 9 pm CDT, most of the tiles for the NGA Digital Globe GEOEYE have been moved to the Harvey Response/20170831 folder, the remainder that I am uploading now will be in the incoming folder, probably at least until tomorrow.

Thanks,
Robert Kirkland

You're welcome...

does anyone know what's coming in over the weekend? What we may need to do?

Thanks again and hope you have/had safe travels!

Hi Eric –

We are publishing to the EPA GeoPlatform on line as tiled layers and into <https://gispub.epa.gov> in the NCC as image services. We are using the High Res aerial

flight4-<https://epa.maps.arcgis.com/home/item.html?id=991c74f6277643d990ad807c19fab0d7>

flight5-<https://epa.maps.arcgis.com/home/item.html?id=efbc3fbedada24b43886bd8afd847f65d>

Flight 2 and 3 are being built now and we will send the link later today.

For Image services:

https://gispub.epa.gov/arcgis/rest/services/ER_Harvey/ is the folder

Flight2 – https://gispub.epa.gov/arcgis/rest/services/ER_Harvey/Flight2_HR/ImageServer

Flight3 – https://gispub.epa.gov/arcgis/rest/services/ER_Harvey/Flight3_HR/ImageServer

Flight 4 and 5 will be up later today (within the next hour or so) in this location

The link for Digital Globe data is here:

Eric,

Many of us are in the process of traveling back east. I asked Barb Rosenbaum to get you the Aspect data services. I believe Bob Kirkland was working the DigitalGlobe data.

What is the status of the ASPECT image service you guys are creating?

What about the postdisaster Digital Globe Service?

There are too many emails coming in to read them all, so all we need are the URLs so we can load them in the viewer.
